VANGUARD logistics services

Vanguard puts assurance into your supply chain with our PriorityAssured program.

Did you ever hear or say: "How much are we paying to airfreight that material !?!"

By relying on PriorityAssured, you can minimize the amount of times you will say or hear that statement. We know that not every shipment will need Priority handling, however, when those times arise, it is important that you have a way to fill the gap for something that misses that one critical sailing. We now have a way to give you the assurance you need.

We have talked with hundreds of customers as we developed this product, and every single one of them has told us stories about how a program like this could have saved them many thousands of dollars in the long run.

Bank on the professionals at Vanguard to ensure your freight moves, quickly, carefully, and on time. We will give you the tools and information you need to make the right decision for your clients.

All information is LIVE and available on the VLS-Global.com website... right to the door!!
