VANGUARD logistics services

Imagine a website designed specifically for you, branded as your own, that your entire network can use for all LTL moves associated with your international freight. Its called ShipRite On-Demand. Vanguard and Capital Transportation Solutions offer you a web-based, comprehensive nationwide LTL trucking program with the power to revolutionize your international forwarding operations.

Quoting

- Extremely competitive FAK LTL pick up and delivery rates with multiple LTL providers nationwide
- “Speedsheet” pricing on multiple weight breaks
- Provisions for quoting accessorial charges associated with special services

Ordering

- On-Line dispatch of your shipments. You place the request, we do the rest. Its that easy!

Scheduling

- User-set delivery date requirements for extra urgent shipments

Tracking

- Live, to the minute status updates available through the on-line tracking tool.
- Exception management handled via an e-mail alert system

Auditing

- Bills from all LTL carriers are audited and processed by us. You receive a single bill for all

Payment

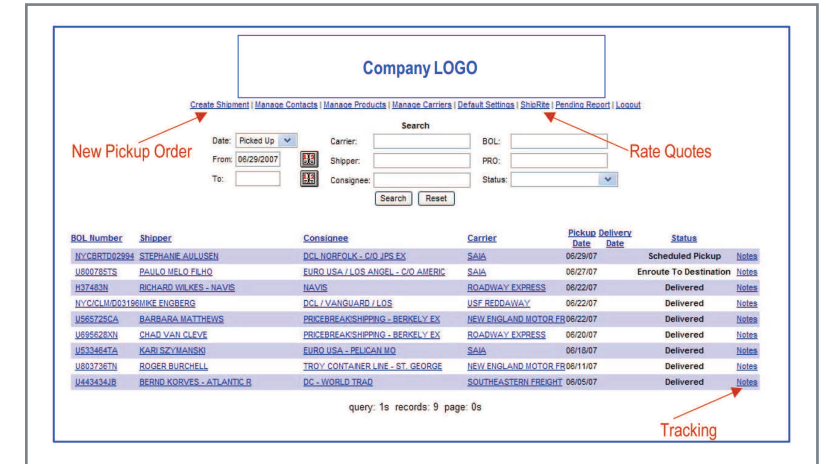

- One bill from one vendor for all your LTL requirements means an extremely simplified means of payment compared with the standard processes for dealing with pick ups and deliveries in international forwarding
