WHY CHOOSE VANGUARD LOGISTICS FOR YOUR GLOBAL SUPPLY CHAIN?

Global Freight Solutions

Unparalleled Geographic Coverage

As world trade grows, so do the needs of suppliers and customers on a global scale. We cover all ports and points throughout Asia, South America, the Mediterranean, the Middle East, North America, The Caribbean, the Indian Subcontinent, Europe, Africa, and the entire South Pacific region.

Frequency and Variety of Services

Our wide ranging products mix, and schedule integrity allow us to handle all of your logistical needs; just-in-time shipping, lean inventory management, storing inventory near the manufacturer, and vendor consolidation service, to name a few.

Customizable Data Solutions

Visibility in real time is the answer. Our global network maximizes data quality and minimizes the need to gather information from multiple sources, reducing and in some cases eliminating the need for data synchronization and other roadblocks to visibility.

Proven Freight Handling

Our highly skilled experts are trained to move all types of freight from non-palletized to over-dimensional to hazardous. The safe handling of your cargo is our number one priority! Our clients are the most demanding on earth, and we excel!

Extensive Origin and Destination Capabilities

In addition to the international transport cargo, we supply a wide range of domestic services from origin to destination, including trucking, drayage, inland movements, re-positioning to final destination, domestic gateway programs, and full transload and distributions systems.

Our Best Practices Allow You to Compete

Our 30 Years of experience as the world's largest neutral consolidator help match supply and demand. We help generate transportation savings, provide visibility, and allow you to control your supply chain. We do this in the most complex environment of world trade where volatility is high and predictability is low.

We are the experts!

Deliver a Better Product Today.
